Description

Lagozon is a leading technology service provider with experience in providing comprehensive portfolio of Consulting and Service Offerings in the niche technology area of Digital Engineering. We are 100 % focused on Data Engineering and Data Analytics and that's all we do. Lagozon offers state-of-the-art solutions to HealthCare, Retail, Public Sector, Manufacturing, Auto, Logistics & Distribution, Telecom & Media, and BFSI Industry. With rich domain knowledge and technology expertise spanning across multiple platforms, Lagozon offers solutions that deliver quantifiable value in the form of revenue growth and better risk management. With multiple relationships built by delivering innovative solutions, Lagozon has become a trusted IT advisor for its customers globally.

Role:

- Working through customer specifications and develop solutions in line with defined requirements.
- Strategizing and ideating the solution design (create prototypes and/or wireframes) before beginning on creating the application or solution.
- Creating load scripts and QVDs to support dashboards.
- Creating data models in Qlik Sense to support dashboards.
- Leading data discovery, assessment, analysis, modeling and mapping efforts for Qlik dashboards.
- Developing visual reports, dashboards and KPI scorecards using Qlik.
- Connecting to data sources (MS SQL SERVER, ORACLE, SAP), importing data and transforming data for Business Intelligence.
- Translating data into informative visuals and reports.
- Developing, publishing and scheduling reports as per the business requirements.
- Implementing application security layer models in Qlik.

Skills Required:

- Knowledge of data visualisation and data analytics principles and skills -including good user experience/UI Design.
- Hands-on developer on Qlik Sense development.
- Knowledge of writing SQL queries.
- Exposure to Azure Cloud.
- Exceptional analytical skills, problem solving skills and excellent communications skills.
- Open to relocate to anywhere in India / outside India.

Qualifications:

- Degree in Computer Science Engineering disciplines or MCA.
- 2-5 years of hands on Qlik experience.
- Qlik Sense certification would be preferred.
