Python Dev + Cloud Tech

Company Overview:

Lagozon is a premier Data and AI company, renowned for delivering cutting-edge solutions that empower businesses across a broad spectrum of industries, including Healthcare, Retail, Manufacturing, Automotive, Logistics & Distribution, Telecom & Media, and BFSI. Leveraging deep industry expertise and advanced technological capabilities, Lagozon crafts innovative, data-driven solutions that deliver tangible business outcomes. Our solutions not only accelerate revenue growth but also enhance risk management, enabling our clients to thrive in an increasingly data-centric world. Through a steadfast commitment to innovation, quality, and excellence, we have built long-lasting partnerships and earned a reputation as a trusted advisor to global enterprises.

Job description:

- We are seeking a highly skilled and passionate Python Developer to join our dynamic team
- As a Python Developer, you will play a key role in designing, developing, and maintaining software solutions that drive business value
- This is an excellent opportunity for an individual who thrives in a fast-paced environment and is eager to work on exciting projects with the latest technologies
- Experience range 3-7+ year (with experience in design)
- Btech Graduate

Key Skills Required:

- Knowledge of latest Python frameworks and technologies (e.g., Django, Flask, FastAPI)
- Experience with Python libraries and tools (e.g., Pandas, NumPy, SQLAlchemy)
- Hands on development experience of AWS (S3, lambda, api gateway, EC2, CloudFront, Route53, Dynamo DB, vpc, subnets)
- Hands-on experience with Kubernetes for container orchestration
- Experience in CI/CD, Unit testing and standard development practices and tools such as Github . Jenkins
